LAWS AND PRINCIPLES OF SPIRITUAL SELFPERFECTION

ABSOLUTE (*lat. Absolutus, bordless, unconditioned*) – in idealistic philosophy – eternal endless spiritual first basis of the existence (*absolute spirit, absolute idea, God, absolute «I»*).

According to the occult presentations – has no definite forms nor space. Distributed equally around all the Universe and in every person is presented like man's «I». Because a. being a source and a life motor in the Universe is over powerful and knows everything, the man's «I» as well has a great power and knowledge.

ABSOLUTE LAWS OF THE SPIRITUAL SELF-PERFECTION BY V.KRISHNEV –

1) Spiritual quantum emitter of the spiritual «I» of the humanity representative (HR) is being formed on the fine virtual plan earlier than physical body (*this is the essence of the phenomenon «The man is not yet born, but they begin to speak about him»*).

2) HR in the form of white-nucleine body envelope is born with the form genetic code of the body envelope and with the individual program of its development (*determined – not depending from the will of its body envelope Spirit [BES] nor stokhatic – depending from the willing essence of BES*).

3) Time and place of the body envelope birth is strictly determined in socium (*presence of this law confirms the capacity of some sensitives foresee the birth [as well as the death] and to anticipate events for people with the determined developing program*).

4) In the moment of majority is switched on the factor of HR realized responsibility for his activity in the society through non-developed spiritual «I» (*animal soul spirit – ASS*) with the motivation «for the fear» or «for the conscience».

5) During his life HR realizes interaction in dialogue with himself (*between BES and controller of the factor of realized responsibility – ASS*) and in dialogue with the society through ASS.

6) Realizing by ASS of the process «I am thinking that «I am thinking» is forming self-sufficiency of HR on the level of a «society Maughly» adapted to survive in the conditions of this local society.

7) The beginning of HR forming as a man is related with the moment of realized perception of himself in the Spirit (*the law confirms the right translation from the ancient Hindou language – sanscrit – of the word «chelovek», where «chelo» is spirit, and «vek» is century*).

/Those who missed this moment remain two legs thinking earth beings/.

8) Perception of yourself in Spirit is the first step of the spiritual understanding from the spiritual innocence to the clear understanding on the conscious level: «Who am «I» and «What is my body».

9) The harmony creation between «I want» of BES and «I must» of ASS and satisfaction of «mine and what I have» is the essence of our developed spiritual «I» (*personality spirit*).

/The second step of HR on the way of the Spiritual ascent forward and up/.

10) The program of personality Spirit (PS) is strictly determined and oriented on the functions and aims of interaction with society in the aspect of self-realization (*the law confirms the essence of the phenomenon: «Everybody in the society has his own – music or techniques»*).

11) PS programs are individual and original (*as well as fingers imprints*).

12) The third and final step of HR on the way of formation in himself of the perfect spiritual personality is a modulation of our PS by the Holy Spirit and finding of the Spiritual Soul Spirit (SSS) with has its Spiritual Motherland beyond the Solar System. (*The law confirms the right using of pyramids by Atlants for the ascent of SSS to the Spiritual Motherland in Milky Way Galaxy*).

Summary: Live substance of over earth and planetary ether on the field level in the form of lepton fields created by planetary torsion interaction «Venus – Earth» is forming the quantum emitter of BES as well as of any other earth creature by the program of the Earth biosphere evolution.

Formation of the Spiritual «I» (*from ASS into PS*) occurs under the influence of the torsion field created by the interaction of planets «Uran – Pluton».

Opportune understanding of yourself in the Spirit and of your predetermined mission in the society is a guarantee of the quick execution of the earth program, of the happy life (*be it difficult for the body envelope and for its controller [Spirit]*) and of the return to the Spiritual Motherland. Not demanded by our Spiritual «I» capacities of our BES become atrophied (*desappear*); with the destruction of the body envelope its quantum emitter (*BES*) is absorbed by the Earth energetic and informational field, and our real Spiritual «I» having passed the noosphere rehabilitation, in some time is reincarnated in a new body envelope.

ABSOLUTE PSYCHOSYNTHESIS by V.KRISHNEV – is based on 12 laws of spiritual self-perfection of V.Krishnev (*see. Absolute laws of spiritual self-perfection of V.Krishnev*), on principles of «complimentary» and «the space observer» by V.Krishnev (*see. V.Krishnev's absolute principles*), Vernadsky's doctrine about a noosphere and Florensky's doctrine about «person-microcosm». A basis of psychosynthesis of V.Krishnev is perception by the consciousness of the person of the unity of a nucleic-albuminous substance of a corporal envelope with his spiritual (*invisible quantum and wave*) substances (*Spirit of a corporal envelope and Spirit of animal soul*). The congenital aspiration to self-perfection, self-realization and management of the Spirit of a corporal envelope is assigned to the Spirit of animal soul. To apprehend itself Spirit (*a quantum and wave radiator, «a burning candle»*) means to become a person («*Chelo*» from a Sanskrit is «*spirit*», «*vek*» – 100 years).

V.Krishnev has created the new theory of structure of the person, has entered a number of new concepts, and also has developed precise practice of eniopsychological trainings and exercises for education, formation, improvement and healing of spiritually gifted people. During development of psychosynthesis by V.Krishnev the author in the monography has given the critical analysis of the vulgar – atheistic psychoanalysis of Z.Freud, sexual – revolutionary communist moods of his pupil Wilhelm Reich and K.Jung's pagan philosophy (*see Valery Krishnev. Eniopsychology [the theory and practice]*) which the first have developed the idea to give a demon consciousness (*Z.Freud enters the concept of the individual «unconscious», K.Jung – collective «unconscious»*).

Spirits of a corporal envelope (*Specific Spirits*) operate by the development of all forms of the nature (mineral, vegetative, animal). Spirits of animal soul are given by the reason of the extraterrestrial nature that specifies the supreme intellectual equality of people occupying the Earth and their God similarity which have their Spiritual Motherland. During self-realization in a society the Spirit of animal soul matures and becomes the Spirit of the person to which the opportunity to become Spirit of Spiritual Soul opens.

ABSOLUTE SPIRITUAL «I» (by V.Krishnev) – a condition of our true space «I» dependent on education and formation. For the person – robot (*see. The absolute hologram of spirit of the person – robot*) the Spiritual «I» is identified with the Spirit of animal soul; for the person reasonable (*see. The absolute hologram of spirit of the person reasonable*) the Spiritual «I» is identified with the Spirit of the person (*the person perceiving himself in Spirit*); for the perfect person the Spiritual «I» is identified with the Spirit of spiritual soul.

ABSOLUTE LAW of LONGEVITY by V.KRISHNEV – the longevity of stay of a spiritual substance in a corporal envelope is caused by harmonization of astral and mental levels of an interaction according to fatal predefiniteness (*set of the target tasks facing the created Spiritual «I» [Spirit of the person]*).

The resume: Creation of Spiritual persons with the perfect Spirit is a way to longevity of a corporal envelope.

ABSOLUTE PRINCIPLE of SPACE OBSERVER by V.KRISHNEV – the observer shows in himself a combination of various forms of a life (*physical, ether, astral, mental*), with the help of which is possible overcoming of time-space restrictions of hierarchy of the Universum and immersing in the world whole of an elevated ether with reception a mystical (*ecstasy*) inspirations. So is confirmed the principle of a non-causal relationship (*synchronism*) of K.Jung and V.Pauli reflecting the general order in a universe according to which the events externally independent appear interconnected by the universal mind and develop according to the law unknown beforehand to the observer, which is possible to comprehend only by immersing in «the changed condition of consciousness».

Principle of space observer by V.Krishnev marks legitimacy of the assumption of existence of forms variety of alive substance with material energetical and informational organization which is distinct from white-nucleinic and confirms legitimacy of ideas of Vernadsky about the existence on the planet of Earth and in the biosphere both in the past and in the present of a combination of several forms of an alive substance with a various material and energetic dominant. Desincarnated inhabitants of an elevated ether also are developed on what ufologists repeatedly inform, in a direction to restraint of the development of a spiritual mind of terrestrials. The main task of these «creatures-aliens» to make people robots-atheists, having adhered their mind-attention to computers, automobiles, TV sets, «mobile phones» and to a corporal envelope, leaving our communication with ourselves only in dream.

ABSOLUTE PRINCIPLE OF COMPLIMENTARY by V.KRISHNEV – is entered by V.Krishnev for studying by a researcher of the spirits (*quantum radiators*) of an elevated ether and of the spirits (*quantum radiators*) of corporal envelopes of persons and animals for whom the spiritual-soul dualism is characteristic (*increase of a degree of the Spirit power display reduces a degree of his sentimental qualities, increase of a degree of display of sincere qualities [pity, sentimentality] reduces a degree of display of strength of the Spirit*). According to the principle of coplimentary by V.Krishnev, while making a life it is necessary to aspire to the firm validity based on precepts of Jesus Christ, as a life (*alive substance of an elevated ether from which the corporal envelope «is weaved»*) and the reasonable form of a life of the Spiritual «I» with a receptacle in this white-nucleinic corporal envelope absolutely is not the same. Interaction of the spiritual-soul manifestations of the Spirit of a corporal envelope with the Spiritual-soul states of our true Spiritual «I» (*Spirit of animal soul*) create repeated spiritual-soul dualism on a horizontal plane of a terrestrial life (*the person-robot in himself and for himself, the person in Society and for Society*). In a terrestrial life a person having perceived himself in Spirit has done only the first step to comprehension of himself as a person (*see. The absolute hologram of the person-robot, the reasonable person, the perfect person*).

ABSOLUTELY COMPLEX STUDYING of THE PERSON (by Krishnev V.K., Kaznacheev V.P.) – a phenomenon of the person is considered as a fundamental social and natural integrity possessing a presence of various properties (measurements of the person) in which social and natural is unseparable. Postulating variety of measurements of the person, the insolvency of the reductional thesis of the philosopher G.Markuze (1970) and excessively atheistic-rationalist constructions of psychoanalysis of Z.Freud (1900) about the one-dimensional person affirms. The closest one concerning authors works is P.A.Florensky's idea, believing, that the person is microcosm, endless by its variety and equipotent to the universe.

To social and natural measurements it is necessary to attribute: 1) health of a corporal envelope of the terrestrial creature, covering global, population and individual levels; 2) set of social and natural

valencies (*alive work, reproduction and education of the Spirit of a corporal envelope in the institute of family with its cultural tradition and language*), determining opportunities and an orientation of realization of social activity of the Spirit of animal soul (*full age Spirit of a corporal envelope*); 3) Evolutionary and ecological bases of health of the psychobioenergetic complex (*the corporal envelope + the Spirit of animal soul*) and its psychobiophysiological opportunities; 4) social and natural, biosphere and noosphere world in which are realized psychobiophysiological opportunities of the advanced Spirit of animal soul into the Spirit of the person and his reserves; 5) Manifestation of weak energetic and informational communications determining field lepton-torsion bases of ability to live of the perfect person and his Spirit of spiritual soul (*the Spirit of the person promodulated by Holy Spirit*).

Social and natural measurements substantially reflect the importance of «a philosophical triad»: «person-mankind-humanity» and problems of the unity of the Truth, the Goodness and the Beauty in Love.

The phenomenon of the person trinity: a corporal envelope with the Spirit of a corporal envelope, the spiritual «I» (*Spirit of animal soul, transformed into the Spirit of the person*) and the Spirit of spiritual soul (*the Spirit of the person promodulated by Holy Spirit*).

The modern atheistic society gives the basic attention to the first level; western and illuminated East society – to the first and the second level. The third level appeared as inaccessible to the whole society and is being elaborated by academies devoted through eniology, eniopsychology, healing and fundamental medicine in the level of the World association of scientists of XXIst century (www.scien.open.by).

ABSOLUTE HEALING (by V.Krishnev) – is a science about the person trinity, about unity and interaction of three substances of the live substance – the energy, directed to the education, to the formation, to the improvement, to the adjustment of the Spirit for self-realization in society (*performance of the set terrestrial mission if presented*) and self-perfection in Spirit (*for finding ability of returning to the Spiritual Motherland*).

The person trinity includes:

1) Space torsion control system (*a quantum-field substance of the Spirit of spiritual soul*) (*see. The absolute hologram of the Spirit of the perfect person*);

2) Local lepton control system (*a quantum-field substance of the Spirit of a corporal envelope*) (*see. The absolute hologram of the Spirit of the person-robot*);

3) Externally visible corporal envelope (*the automated white-nucleinic complex*).

In this trinity the «person» is only one space torsion control system at a the level of the Spirit of spiritual soul (*the advanced Spirit of the person*), apprehending himself through consciousness as the Spirit and following the road of the Spiritual self-perfection.

The unity and interaction of three substances of alive substance is shown through the main Divine truths:

1) Existence of the unique basic Creator-God;

2) The first driving force in any Divine creation of the Universe is the love;

3) The God has created Great individuality in person of the visually invisible Spirit (*i.e. the person*), has given his love and a corporal envelope with his settlement on the planet of Earth;

4) The God has sent to the Earth the Spirit of «the Son only-beloved» Jesus Christ and has embodied Him in the corporal envelope accessible to the perception of all peoples living on Earth;

5) The second driving force in the realization of the Divine plan is the KNOWLEDGE which is carried out by mankind;

6) The Divine plan containing Spiritual love, is realized through boundless knowledge, the thesis of eniopsychologists-healers – «Through knowledge to the belief in God, to the perception of your-

self in Spirit, to comprehension and performance of a terrestrial mission and returning to the Spiritual Motherland, where Jesus Christ is always with us».

ABSOLUTE HOLOGRAM of the SPIRIT of the PERFECT PERSON (the eniopsychologist-healer, the monk, spiritual stalker, the missionary) – the trinity of the Spirit of a corporal envelope, the Spirit of the person (*Spiritual «I»*) and Holy Spirit (*Spirit of spiritual soul*).

ABSOLUTE HOLOGRAM of SPIRIT of the REASONABLE PERSON (the scientist, the cleric, the healer) – two-unity of Spirit of a corporal envelope and the Spirit of the person, perceiving himself in Spirit and aspiring to self-perfection in Spirit (*perception of Holy Spirit*).

ABSOLUTE HOLOGRAM of the SPIRIT of the PERSON-ROBOT (the sorcerer, the atheist, the dogmatic person [the informational inquisitor]) – two-unity of Spirit of a corporal envelope and the Spirit of animal soul (*not taken place of the Spirit of the person*), aspiring to the authority, capable to sell its soul of the Spirit of animal soul to the Devil for material enrichment and prestigiousness in society. A wreath of the activity the similar two-unity sees in the prolongation of similar being – maughly in a society of civilized (*robotized*) jungle.
